ABOUT THE AGENCY OPPORTUNITY

As Summit Network Group (SNG) embraces a vigorous expansion program in order to strengthen its services capabilities and business growth, it is currently in the process of firmly increasing the allocation of SNG regional agency opportunities to qualified and visionary entrepreneurs. By increasing its agency operations internationally, SNG is able to link its associate members with an unparalleled network resource database with only the best opportunities, corporate resources or transactions available in the world market. It further affords SNG's associate members with the benefit of not needing to visit multiple business brokerage firms, financial institutions or corporate advisory firms in their quest to secure the right deal and applicable corporate resources.

The SNG regional agency offers an excellent business opportunity for entrepreneurs involved in the financial industry, as well as those who have explored the idea of becoming involved in the lucrative and vibrant international project development and venture capital industry, but have increasingly find it difficult to secure finance and expertise for business development, investment and speculation. With the support of SNG, its agency partners are less exposed to the extreme risk and huge capital input requirements normally associated with a business in the same industry.

The SNG regional agency opportunities are afforded in terms of a license agreement, which operates as independent and privately owned business entities. These exciting and lucrative SNG regional agency opportunities are available only to visionary, dynamic and energetic entrepreneurs, which currently have SNG associate membership, or alternatively qualify and are desirous to obtain such associate membership, and subscribes to its stringent values and principles.
